Protik Hossain/Audubon Photography Awards

Birds Connect Seattle is excited to help you with your next team event. Founded in 1916, our nonprofit organization connects people with birds and the natural spaces we share. Your team will leave with a few more bird facts, quality time with coworkers, and a renewed appreciation for the remarkable wildlife and green spaces that make Seattle so special.

## Lunch and Learn (1hr/\$250)

Let us guide you through an educational discussion of Seattle's birds and explore our collection of bird specimens. Whether you have a specific species in mind or would like our suggestion, these learning sessions make a perfect midday birdy break.

## Private Classes (1hr/\$250)

From block printing to field sketching, create a custom class with us focused on local birds and conservation. Perfect for a daytime team outing, relax in our cozy space while learning, creating, and trying something new together.

## Bird Outing (2hrs/\$500)

Our guided bird outings are a fun way for your team to learn a new skill while discovering local birds and green spaces. We provide the binoculars and expertise to lead your group on an engaging adventure. Suitable for all skill levels!
